About Nuverra Environmental Solutions

We are Nuverra Environmental Solutions, a company dedicated to the protection, enhancement and advancement of environmental solutions.

Nuverra specializes in providing environmentally compliant and sustainable solutions to a national footprint of customers who demand the highest level of environmental compliance and accountability from their service providers. Together with our customers, we fundamentally support sustainable energy generation and American energy independence.

Protect

Nuverra protects the environment and our clients' interests through responsible implementation of full-cycle environmental solutions.

Enhance

Nuverra enhances our partners' sustainable footprint through responsible and safe reuse, recycle, transfer and disposal of oil and gas waste products.

Advance

Nuverra enables our client partners to advance national energy independence, reduce energy costs, create new jobs and launch a new era of economic prosperity.

The Nuverra Name

Our name is a reflection of our core commitment to providing comprehensive environmental solutions.

The name comes from the Greek word neos, meaning new; and the Latin words vera meaning true, and terra meaning earth.

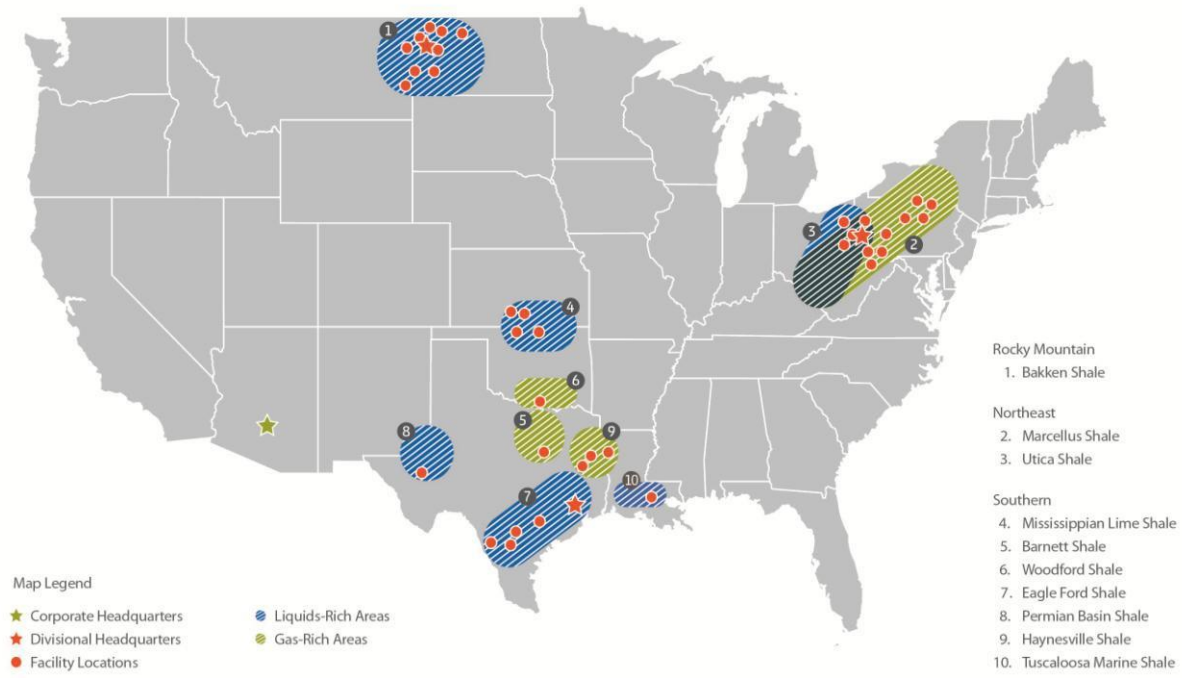

Together they signify a full-cycle environmental solutions company committed to creating a sustainable future.

Our logo reflects the critical balance that environmental solutions play in creating a sustainable future. This dynamic relationship is symbolized by two equal halves that unite to form a letter “N” – the symbol of the Nuverra name.

National Footprint

Historically Nuverra has been one of the largest environmental solutions companies in the United States, operating in more than 39 locations across 10 states and over 2,000 employees.
